What We Did

The Healthy for Good Expo was an all-day event held in February 2024 at Utica University for the 50th anniversary of America's Greatest Heart Run & Walk. Our team staffed a booth from 11:00 am- 7:00 pm to share information with people about the Reimagine St. Luke's project and gather community input on ideas for the redevelopment of the former St. Luke's campus. Over 100 people visited the booth and shared their ideas and comments.

The following prompts were provided to spark discussion:

St. Luke's is special to me because...

We should build on successes including...

I imagine St. Luke's will benefit our neighborhood by...

Please tell us other places you visited and thought "I wish we had this at home!"
